DETAILED ACTION

Reasons For Allowance

1. The following is an examiner's statement of reasons for allowance:
 - The primary reason for allowance of claims 1, 19, and 38 is due to the incorporation of the limitation into independent form which states "the heater element configured for heating the heater element to a temperature above the boiling point of the bubble forming liquid to form a gas bubble that ejects a drop of the ejectable liquid through the nozzle corresponding to that heater element. wherein, the gas bubble collapses to a collapse point spaced from the heater element, and the heater element has two planes of symmetry intersecting along the nozzle axis such that the energy required to heat the heater element to form the gas bubble is less than the energy required to heat a volume of the ejectable liquid equal to the volume of the drop, from a temperature equal to the ambient temperature to the boiling point." The limitation overcomes the prior art.
 - The reason for allowance of claims 2-8, 10-18, 20-27, 29-37, 39-44, and 46-54 is due to their dependency on claims 1, 19, and 38, which are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Han S. Choi whose telephone number is (571) 272-8350. The examiner can normally be reached on Monday - Friday, 8:30am to 5:00pm.
